Today's Money in the Vault Horse is the horse deemed by The Turf Club Analysts to be today's most likely winner. **Today's Live Longshot** is the horse most likely to make an impact at big odds. On rare occasions the same horse can qualify for both distinctions. Races are rated from one to four gold coins. Four coin races are the races to wager the most money on, while one coin races should be skipped altogether or have a smaller amount wagered on them.
